

DRAFT PERMIT

Permittee: Lake Bungee Tax District
Permit No.: DS-200903854
CT Dam Inv. No.: Lake Bungee Dam #16933
Hazard Class: B
Town: Woodstock

Pursuant to Section 22a-403 of the Connecticut General Statutes, the Lake Bungee Tax District ("permittee") is hereby permitted to construct repairs to Lake Bungee Dam ("the dam") on Bungee Brook in Woodstock, Connecticut which are described on plans (latest revisions) included with dam repair permit application #DS-200903854 received at the DEP on November 20, 2009 and as conditioned herein.

Authorized Activity

Specifically, the permittee is conditionally authorized to construct repairs to the dam as specified on the set of plans (four sheets) entitled, "Repairs and Improvements to Lake Bungee Dam, Woodstock, Connecticut, October 2009 Sealed by P.E. License of Karl Acimovic, with revision date of May 28, 2010, and received at DEP on June 3, 2010.

The work in general comprises repairs to the dam to correct a seepage problem under the right side of the spillway, repair cracking in the concrete of the spillway and bridge piers, restore and repair the left stone masonry abutment wall, and repair and restore voids and undermining in the spillway apron downstream. No work to the earthen embankment is included.

This permit is subject to and does not derogate any present or future property rights or other rights and all public and private rights and to any federal, state, or local laws or regulations pertinent to the property or activity hereby. This authorization is subject to the following conditions:

PERMITTEE'S FAILURE TO COMPLY WITH THE TERMS AND CONDITIONS OF THIS PERMIT MAY SUBJECT PERMITTEE AND PERMITTEE'S CONTRACTOR(S) TO ENFORCEMENT ACTIONS AND PENALTIES AS PROVIDED BY LAW

Special Conditions

- A. Drawdown Limitation. The maximum drawdown of Lake Bungee shall be limited to no more than three feet while conducting authorized activities. Where practical, coffer dams shall be used to dewater areas adjacent to the dam. See notice requirements in the General Conditions section of this permit.

- B. A Flood Contingency Plan for during-construction water handling and drawdown timing based on permit application Attachment I and the latest sequence of construction, shall be submitted to and approved by the project engineer with a copy of the approved plan submitted to the DEP Dam Safety Section prior to beginning construction and any drawdown of Lake Bungee impoundment.
- C. Work authorized by this permit shall not be initiated until any permit required by The U.S. Army Corps of Engineers (ACOE) has been obtained or a determination that no permit is required has been obtained. The work authorized herein shall comply with conditions of any permit issued by the ACOE for this project. The ACOE's Concord Massachusetts office number is (978) 318-8335.

General Conditions

1. Initiation and Completion of Construction

- A. The permittee shall notify the Commissioner in writing no less than seven (7) days prior to commencement of permitted activities and no less than seven (7) days following completion of permitted activities.
- B. The permittee shall, pursuant to Section 22a-377(b)-1(a)(16)C of the Regulations of Connecticut State Agencies, notify the Commissioner and any potentially affected water company in writing at least seven (7) days prior to the lowering of Lake Bungee for the purpose of undertaking permitted activities.
- C. The Department of Environmental Protection shall be notified at least forty-eight (48) hours prior to drawdown of the impoundment, in accordance with Section 26-138 of the Connecticut General Statutes. Such notification shall be made to the Inland Fisheries Division, 79 Elm Street, Hartford, CT 06106-5127, telephone no. 860-424-3474.

2. Expiration of Permit

- A. The activities authorized herein shall be substantially completed on or before three years following the date of issue unless this permit is extended in writing or renewed.
- B. This permit may be revoked, suspended, or modified in accordance with law, including but not limited to the Regulations of Connecticut State Agencies Section 22a-3a-5(d).

3. Permit Compliance

- A. This permit and a copy of the approved plans and specifications shall be kept at the

project site and made available to the Commissioner at any time during the construction of permitted activities.

- B. Permitted activities shall be performed under the supervision of an engineer who is licensed to practice in the State of Connecticut and who is familiar with dam construction. Said engineer shall, upon completion of the permitted activities, certify to the Commissioner in writing that the permitted activities have been completed according to the approved plans and specifications.
- C. The permittee may not modify the permitted plans and specifications without the prior written approval of the Commissioner.
- D. Within thirty (30) days of completion of the permitted activities, permittee shall submit to the Commissioner record drawings depicting the dam construction as completed, including any deviations from the approved plans and specifications. Said drawings shall be prepared and sealed by the engineer who oversaw the construction. In addition, the permittee shall arrange for submission of an electronic copy of the final record drawings in Adobe Acrobat "pdf" format.

4. **Fishway Requirements**

The Commissioner has determined in accordance with Section 26-136 of the Connecticut General Statutes that, as of the date this permit is issued, a fishway is not required at this dam.

5. **Reliance on Application**

In evaluating the permittee's application, the Commissioner has relied on information provided by the permittee. If such information subsequently proves to have been false, deceptive, incomplete or inaccurate, this permit may be modified, suspended or revoked.

6. **Best Management Practices**

In constructing the activities authorized herein, the permittee shall use construction methods that minimize sedimentation and erosion and prevent pollution. Such practices include, but are not necessarily limited to the following:

- A. All authorized activities shall be performed in such a manner as to minimize resuspension of sediments and subsequent siltation and to prevent construction materials and debris from entering wetlands or watercourses.
- B. No construction vehicles shall be stored, serviced, washed or flushed out in a location where leaks, spillage, waste materials, cleaners or waters will be introduced or flow into wetlands or watercourses.

- C. Haybales, mulch, sedimentation basins or other temporary sedimentation controls, including silt fences, shall be used as necessary to control erosion and sedimentation.
- D. Except as provided in this permit, no material storage or stockpiling of construction materials shall occur in any wetlands or watercourses.
- E. Drawdown of Lake Bungee shall be limited in extent and duration to that necessary to complete the permitted activities and shall be no greater than three feet.
- F. Fill, without limitation, or construction debris, shall not be placed in wetlands or watercourses unless authorized by this permit.

7. **Certification of Documents**

Any document, including but not limited to any notice which is required to be submitted to the Commissioner pursuant to this permit shall be signed by: the permittee, a responsible corporate officer of the permittee or a duly authorized representative of such person, as those terms are defined in Section 22a-430-3(b)(2) of the Regulations of Connecticut State Agencies, and by the individual or individuals responsible for actually preparing such document, each of whom shall certify in writing as follows:

"I have personally examined and am familiar with the information submitted in this document and all attachments and certify that based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, the submitted information is true, accurate, and complete to the best of my knowledge and belief, and I understand that any false statement made in this document or its attachments may be punishable as a criminal offense".

8. **Submission of Documents**

Any document required to be submitted to the Commissioner pursuant to this permit shall, unless otherwise specified in writing by the Commissioner, be directed to:

Arthur P. Christian
Supervising Civil Engineer
DEP/Bureau of Water Protection and Land Reuse
Inland Water Resources Division
79 Elm Street
Hartford, CT 06106-5127

The date of submission to the Commissioner of any document required by this permit shall be the date such document is received by the Commissioner. The date of any notice by the Commissioner under this permit, including but not limited to notice of approval or disapproval on any document or other action, shall be the date such notice is personally delivered or the date three days after it is

mailed by the Commissioner, whichever is earlier. Except as otherwise specified in this permit, the word "day" as used in this permit means one calendar day. Any document or action which is required by this permit to be submitted or performed by a date which falls on a Saturday, Sunday or a Connecticut or federal holiday shall be submitted or performed before the next day which is not a Saturday, Sunday or a Connecticut or federal holiday.

Dam Owner/Operator Liability

Your attention is further directed to Section 22a-406 of the General Statutes: "Nothing in this chapter and no order, approval or advice of the Commissioner, shall relieve any owner or operator of {a dam} from his legal duties, obligations and liabilities resulting from such ownership or operation. No action for damages sustained through the partial failure of any structure or its maintenance shall be brought or maintained against the state, the Commissioner of Environmental Protection, or his employees or agents."

This authorization constitutes the permit required by Section 22a-403 of the Connecticut General Statutes.
